

## **Directions to Woodloes View Point**

When you arrive at the view point, be aware that the wall is high and shouldn't be climbed. Children who cannot see over the top of the wall can be taken across the road and stand on the bank by the fence, where the view is just as good.

Read the instructions to younger children and allow them to point the way.

1. Stand facing the main school entrance.
2. Turn to your left and walk past the entrance to Ridgeway School.
3. Take the left hand path past the bus stop.
4. Cross the road at the crossing and follow the path all the way up the hill.
5. At the top, turn right
6. Follow the main road along the hill until you reach a brick wall with a pointed parapet by a metal traffic barrier.

You have arrived!

The wall is very high, do not climb it.

There are steps at one end of the high wall? I wonder where they go?
